behance.net/shahddsameh | Cairo, Egypt

Profile

UI/UX-focused front-end developer with a BSc in Business Information Systems and a 3.95 GPA, experienced in designing and delivering responsive, accessible, WCAG-compliant web applications from wireframe to deployment. Recently led a five-person team in completing and deploying Mwasalaty, a multimodal Cairo transit PWA, on AWS. Strong in Figma, Vue 3, TypeScript, Tailwind CSS, and JavaScript (ES6+), with product thinking across the full software delivery lifecycle.

Education

Helwan University, BSc in Business Information Systems

Aug 2021 – Jun 2025

GPA: 3.95/4.0

Experience

UI/UX Development Intern, ITI (Information Technology Institute) — ICCP

Jan 2026 – June 2026

- **Mwasalaty** — Led a 5-person team building a multimodal Cairo transit-planning and QR-ticketing PWA; owned planning and delivery across 5 phases in Linear using an Agile sprint workflow with task assignment and progress tracking.
- Owned the front-end architecture in Vue 3 + TypeScript: built responsive, WCAG-compliant bilingual EN/AR interfaces with full RTL support, offline-first behaviour via Workbox and IndexedDB, OpenTripPlanner journey planning, and an integrated PayMob payment and QR-ticketing flow. Deployed and configured the project on an AWS EC2 instance for cloud testing and demonstration.

Finance Intern, The Egyptian Airport Company

Aug 2024

- Completed a cross-functional rotation across 4 departments, using Excel (pivot tables, VLOOKUP, data validation) and Oracle ERP to reconcile datasets, prepare cost reports, and convert raw data into structured entries — building analytical and data-visualization literacy transferable to UX data analysis and dashboard design.

WordPress Developer Intern, WAW-Book

Jul 2024

- Designed and launched a fully responsive travel website on WordPress, handling layout, theming, and the Amelia booking integration end to end.

Island – Travel Website | *WordPress, Amelia*

Digital Banking & Fintech Intern, Commercial International Bank (CIB)

Aug 2023 – Sep 2023

- Analyzed the UX of digital banking products, fintech interfaces, and AI/ML-powered customer-facing tools at one of Egypt's largest private banks — building product thinking, domain awareness, and exposure to enterprise Agile workflows directly applicable to UI/UX roles in financial technology.

Projects

InnerAura – Online Therapy Platform | *Node.js, Express, PostgreSQL, Tailwind, Jitsi API*

Jun 2025

- Architected and delivered a full-stack telehealth platform with multi-role support, intelligent therapist matching, real-time video communication (Jitsi), secure REST APIs (JWT, bcrypt), and a responsive, WCAG-compliant front end.

Extracurricular Activities

Delegate, ThreeDos – Web Development Council

Feb 2023 – Aug 2023

- Built a freelancing web platform connecting clients with freelancers.

Service Hub – Freelancing Platform | *PHP, MySQL, JavaScript, Bootstrap*

Member, ThreeDos – Graphic Design Committee

Sep 2021 – Jul 2022

Skills & Technologies

UI/UX & Design: Figma, Adobe Illustrator, Adobe Photoshop, Adobe Premiere Pro, Wireframing, Prototyping, User Flows, Heuristic Evaluation, Design Thinking, User-Centered Design (UCD), Responsive Design, WCAG 2.1, Accessibility (a11y).

Front-End: HTML5, CSS3, JavaScript (ES6+), TypeScript, Vue 3, Tailwind CSS, Bootstrap, WordPress, PWA (Workbox, IndexedDB).

Back-End & Data: Node.js, Express, PHP, PostgreSQL, MySQL, REST APIs, Python (Pandas, NumPy, Matplotlib), SQL, Power BI, Oracle.

Tools Platforms: Git, GitHub, Linear, Agile/Scrum, Linux, AWS EC2, Microsoft Office, Microsoft Excel, SEO.

Soft Skills: Team Leadership, Teamwork, Presentation, Communication, Problem-Solving, Adaptability.
